

WHERE THE MONEY GOES

ALSF RATED 4 OUT OF 4 STARS!

Charity Navigator evaluates charities' financial documents and develops an unbiased, objective numbers-based rating system to assess the charity's performance.

Receiving 4 out of 4 stars means that supporters can be assured that ALSF is worthy of their trust and commitment.

HOW YOUR DONATION HELPS KIDS WITH CANCER

At Alex's Lemonade Stand Foundation (ALSF), the primary focus is to find better treatments and cures for all childhood cancers. ALSF is doing everything it can to speed up the research that will help these children.

In addition, ALSF provides resources such as sibling programs, treatment journals, community forums and more to support childhood cancer families.

CHILDHOOD CANCER RESEARCH

To date, ALSF has raised more than \$150 million and funded over 800 cutting-edge research projects all on the same quest, to put an end to childhood cancer.

Did you know a gift of:

- \$50 will fund one hour of research;
- \$400 will fund one day of research;
- \$2,000 will fund a week of research;
- \$8,000 will fund an entire month of research.

The research that your donation funds could lead to a cure!

ALSF TRAVEL FOR CARE PROGRAM

While the majority of ALSF funding goes toward research, ALSF is also deeply aware of the struggles families face while dealing with a childhood cancer diagnosis. We have created several programs to assist them financially, emotionally or otherwise. One of these programs is Travel For Care.

This program helps families with expenses when they need to travel far from home to receive potentially lifesaving treatment for their children.

A Travel For Care donation of:

- \$15 can provide a gas card to help a family drive to a hospital for treatment;
- \$20 can help cover the parking fee at the hospital;
- \$100 allows members of a family traveling for cancer care to stay at a hotel and not be burdened by the cost.

Any size donation will help ease the financial burden so families can focus on what really matters—their child's health.
