Activity Description:

Use popsicle sticks or other materials you might have on hand to create a miniature lemonade stand. Kids can decorate the stand itself, come up with a catchy name or tagline, and make items to offer at the stand.

Outside of being a highly enjoyable activity, making and decorating a lemonade stand can foster conversations about different 2-D and 3-D shapes, primary and secondary colors while mixing paint, the difference between goods and services, and the importance of helping others.
